

THE DICKSON DIARIES

The Latest Events & Writings of
ROGER E. DICKSON

BREAKING NEWS!

October 18, 2023: The months of May through October 2023 have been revision, enhancement, and reformatting of the old *Teacher's Bible*. What is now coming forth from the press by the end of October is the new and improved **DICKSON TEACHER'S BIBLE COMMENTARY**. This has been a laborious journey on the part of both Martha and myself. With the opposition of health issues along this journey, we have now come to an end of an intense journey that originally began in 2020 with the revision and expansion of the *Encyclopedic Bible Study Guide*. In 2021 / 2022, we published and distributed over **385,000** individual volumes of this 400-page Bible study aid. The entirety of the material of this publication has now been incorporated into the new *Dickson Teacher's Bible Commentary*. We have made this move in order to develop an ideal "preacher training school" in one volume to be distributed worldwide to faithful Bible teachers and preachers. For economic reasons, we have taken out the *Teacher's Bible* volume the *International King James Version*. By doing this we have been able to compact into newly entitled volume the material of the unabridged *Encyclopedic Bible Study Guide*. This makes a **1,450-page** new volume that can be economically published and distributed around the world. The first printing and distribution will be to the 1.5 billion souls of **INDIA!**

NEWS FROM YESTERYEAR

September 9, 2023: At this time Martha and I are diligently into the reformatting and revision of the formerly published, *Dickson Teacher's Bible*. The new title for this volume, after all the additions and revisions have been added, will be entitled the *Dickson Teacher's Bible Commentary*. Including the distribution of printed editions, as well as distribution through the *Bible Research Library DVD*, over one million copies of the *Dickson Teacher's Bible* were distributed since the initial printing of the New Testament edition over forty years ago. Because the material was not brought up to date since the last publication over fifteen years ago, I decided that additions and revisions needed to be made. This is especially true in reference to the latest edition of the *Encyclopedic Bible Study Guide* that was first published in 1972, with continued additions since that date. With all the recent additions, especially those of 2022, I can comfortably say that the *Dickson Teacher's Bible Commentary* will be the ideal textbook for Bible schools. But more important, this will be the Bible study aid that will offer the best one-volume Bible publication for those preachers and teachers who will never have the opportunity of attending a formal Bible school. There is nothing like it being published in the world today. **This is a life-time volume that you can pass on to your heirs.**

.....

September 18, 2023: From 75% to 80% of those who download from the website www.roger-e-dickson.org do so with mobile phones (smartphones). Since we have been in the process of reformatting, revising and adding new material to the forthcoming *Teacher's Bible Commentary*, we thought it necessary to reformat the material also for smartphones. We have now done the commentary on **MATTHEW**, which has been added to the *Teacher's Bible* section of the website. We would appreciate it if you would download this newly formatted edition of the commentary and give us some comments and suggestions. We have changed the font and have reformatted the layout to be more compatible with smartphones. Please send your suggestions to rdickson@mweb.co.za

Check in later for more forthcoming news!
