

The Josiah Project

~ A BIBLE CURRICULUM ~

Since there are many people throughout the world who are using the *Disciple Study Bible* as the **textbook** in their Bible schools, we offer below a suggested topical study of the ***Encyclopedic Bible Study Guide***. This *Study Guide* will aid teachers in taking Bible students through key subjects that are related to in-depth Bible study and the gospel. The teacher has the option of following the lined material of the *Study Guide* from beginning to end. However, many teachers study only those topics of the *Study Guide* that are appropriate for their community. Regardless of how the *Study Guide* is used, Bible students are here introduced to the contents of the *Study Guide* that will greatly enhance their ministry of the word of God to others.
