## NEWS FROM MALAWI!

It is indeed encouraging to hear from **JOSEPH MTAWALI** of the small village of **Phoka**, close to **Livingstonia, Malawi**. (It has been many years since I was in that region.) Brother Mtawali has translated some of the material on the “introduction to the Bible” from one of the books that is offered in the ***International Bible Institute Library***. Pictured above is a group of preachers who are studying through the material that brother Mtawali translated. What better classroom can one have than what is pictured above. Here are dedicated preachers of the area taking the time to study through the word of God in the fellowship of others who have the same vision.

(If you also have pictures of your work in reference to the material of the ***Library***, send them our way.)
