BREAKING NEWS!

There is some exciting news in reference to the outreach of the **International WhatsApp Bible Institute (IWBI)**. After only a short time in existence, we must report to all students that because of the work of God in this ministry, the outreach has gone far beyond our greatest expectations.

INTERNATIONAL IMPACT

It is exciting to report that the outreach of the IWBI has gone into over **fifty (50) countries** of the world.

NIGERIAN RESPONSE

Response to the **IWBI** from Nigeria alone has reached over **7,000!**

NAMIBIAN RESPONSE

Namibia is a small nation of about **2.3 million** people. However, with an initial response of just one person, within **THREE WEEKS** the enrolment response reached over **600**. The reason for this overwhelming response is in the **organic growth** of how the news of the **IWBI** reaches the zealous Bible students of a nation. Organic growth means that dedicated Bible students pass on to their friends through **WhatsApp** the opportunity of enrolling in a Bible school study that does not require that one connect with the Internet, or move off to some "school location." Instead, **all courses are sent directly to students through WhatsApp**. If someone receives a course, then he or she can pass on the opportunity of the **IWBI** to friends across the country. **There are no tuition fees for this study. EVERY COURSE IS FREE!** Everyone who has a smartphone (mobile), and has WhatsApp, can enrol and receive courses through the **IWBI**. This is the best news that has been broadcast around the world for many years. Even if you want a Bible, it is now formatted for your smartphone on the following website:
